Form C - Reporting Form, MUST be completed prior to calling Building & Safety for Final Inspection and submitted to IWMD with legible letters and/or original receipts, including weights for all materials and/or waste, recycled, reused, salvaged and/or landfilled. Each entry on this form must correlate to a dated receipt proving recycling, reuse, and/or salvage occurred. Landfill disposal receipts are also required.

Document "REUSE" on letterhead; estimated weight of reused material must be included.

Also, if you have multiple receipts of one material type (i.e., concrete, metal, wood), you must separate your recycling & trash receipts. Staple recycling receipts together by material type and write the TOTAL weight of all receipts on the top sheet of each packet. Staple trash receipts together with total weight as above. Enter this information into the Materials Table by material type. Enter trash weight as "Other - Explain." (See other side)
